

First introduced by Stephanie Odegard in 1987, Odegard Carpets revolutionized the world of hand-knotted contemporary carpets. With unrivaled commitment to quality and sophisticated design and color, Odegard has been at the leading edge of modern carpet production for decades.

All Odegard Carpets are unique, starting with carefully selected Himalayan wool, which is hand-carded and hand-spun by Tibetan and Nepalese craftspeople, using centuries-old techniques.

Our extensive knowledge of bespoke design is what sets Odegard apart from the competition. Our standard sizes range from 4 x 6 to 12 x 16, including runners of any length. Custom sizes up to 26 x 47 feet and custom sized shaped carpets can be easily produced to order. An Odegard carpet can be customized in many ways, custom combination of colors can be applied to a pre-existing Odegard design or a client's own design can be produced. We have over 2,000 standard colors to choose from as well as dye to match capabilities. The possibilities are endless, let our expert team guide you through this inspiring process.

Odegard Carpets requires strict adherence to social responsibility, raising the standard of living for thousands of artisan weavers in Nepal. All Odegard Carpets carry the GoodWeave® label, your best assurance that no child labor was used.

The images included in this catalogue are a small representation of the hundreds of original designs in our collection. For information about our products please contact us.
