Inspiration for a life well-lived.

SS 2019

*We are humbled to be a part of your family.
We embrace you into ours.*

CRISS CROSS APPLESAUCE.

WELCOME TO VERELLEN'S WORLD
OF TAILORED UPHOLSTERY.

Rooted in America's ganglion of the upholstery craft we aim to respect tradition with sensitivity and truthful emotion. A balancing act of insight and audacity, understanding and challenge, history and continuity.

Our DNA is a fabric that is spun organically. The Verellen team cultivates ideas and observations on current technologies and applications with the natural resources that we carefully select to execute our pieces with a model brilliance. Belgian Conception meets American Perfection.

We are humbled to be part of your family. We embrace you into ours. Moods and experiences, friends and family life, travels and homesteading are impulses that awaken the senses and shape our sensibilities.

Conviviality is what we offer.

SS 2019

*All by hand. All by design.
And all for you.*

FROM FLAX TO LINEN.

From flax, the world's finest linen. From a handful of seeds, a forest of trees. Hand-spun wool yields to its own landscape of piles and textures. The smoothest fibers from the softest puffs of cotton. Planed, sanded, double-dowed, measured, cut, sewn.

All by hand. All by design. And all for you.
