

**skram**  
2020

The objects that surround us  
are a reflection of our priorities.

Our priorities reflect our character.

We reject disposability and believe  
that quality is more than a slogan.

enduring design and fine workmanship are inextricable.

Based in the Piedmont region of North Carolina, USA since 2001, Skram is a manufacturer of customizable heirloom furnishings at scale for design-driven residential and hospitality applications.

The company has earned a domestic and international following for an approach that emphasizes sustainable practices, natural materials, and extraordinary workmanship. All Skram products are made in their entirety in the Company's solar-powered N.C. facility.

Skram operates under the creative direction of lead designer A. Jacob Marks.

Skram was established in 2001 in North Carolina, U.S.A.

---

A stunning residential space, featuring a selection of signature Skram products. Shown here is our altai dining table and benches in walnut with matte black steel, as well as L01 armchairs in rift white oak, ebonized.

project spotlight:  
mordecai, chicago

Working with chicago-based architecture/design firm FC Studio, Skram outfitted the new multi-level mordecai cocktail bar + restaurant with piedmont collection no. 3 dining and bar height seating.

project spotlight:  
norma kamali, nyc

Skrum collaborated with fashion designer Norma Kamali for her new brand Normalife. Altai collection tables and benches and saddlestools are featured in the bold re-design of the brand's nyc headquarters.

our product line is a springboard for the imagination of our clients.

customization and the realization of bespoke objects is at the core of our creative process.

# altai

Merging advanced machining technologies and traditional joinery, Altai embodies Skram's model of manufacturing, which emphasizes heirloom quality at scale.

Muscular proportions with a delicate yet substantial presence—the Altai family includes seating, tables, and open storage, all customizable to suit. A variety of standard and custom timber and metal options are available. Altai furniture is suited for a range of public and private spaces.

## bolota

BOLOTA is a limited series of seating and tables using high-density cork with blackened aluminum, timber, and bronze detailing. A trio of new designs—Capture, Quad, and Scallop—are added to existing Skram cork-centric objects like the Corkdrop and Corkbowl to form the Bolota line. Like most Skram products, the new work is suitable for residential or premium contract applications.

## drop

Drop Series furniture is a focused geometric exploration of the drop shape. Drop designs are expressed in varied materials and adapted to an array of uses, but all are bound by the use of simple but compelling geometric relationships.

piedmont

Piedmont consists of seating, tables, and storage options unified in their negotiation of line and their juxtaposition of lightness and weight. Elegant but substantial, Piedmont products embody the utilitarian grace that distinguishes Skram furniture.

## lineground

Skram's Lineground Collection is a grouping of solid timber seating, tables and storage products for residential and luxury hospitality settings.

Refined and restrained, Lineground is a visual exploration of balance, proportion, and negative space—visually striking and functionally-tuned.

wishbone

Skram's Wishbone Series tables, desks, and storage options use hand bookmatched hardwood veneers, solid timber, and steel.

Wishbone Series products are characterized by bold, cantilevered forms and approachable refinement.

# services & capabilities

Skram offers a range of services tailored to a clientele who value the company's commitment to producing objects that are innovative in design, visually restrained, and uncompromising in their quality. In addition to the sales of standard products at standard lead times, the company offers the following services to customers seeking either customization or requiring accelerated turnaround times.

**QUICKSHIP**--Responding to the needs of customers for whom timing is paramount, Skram maintains limited inventory of select items. In stock items ship within 10 business days of order confirmation. Available products may be viewed via the 'Quickship' page of the Skram website or by contacting Skram to request a comprehensive inventory list.

**RUSH ORDER**--Similar to the quickship program, Skram's rush order program permits accelerated lead times and guaranteed ship dates for not-in-stock or customized items. Upcharges apply for this service and are calculated as a percentage of invoiced amount relative to required delivery date.

**CUSTOM**--Skram views its product line as a springboard for the creative vision of its clients. The company's product line is customizable in material, scale, and configuration beyond the standard options. Custom services fall into two basic categories:

**-ONE OFF/LOW VOLUME:** Skram's one-off services are available to any firm or individual that would like either to modify existing Skram designs or commission the design and fabrication of original custom designs for unique projects or applications.

**-CUSTOM CONTRACT:** Skram's custom contract division was created to serve the needs of firms specializing in high-profile, large-scale interior architecture projects. From design to delivery, the company's contract division is focused on ensuring customer satisfaction in both process and product. Inquiries regarding contract or custom contract projects should be directed to [contract@skramfurniture.com](mailto:contract@skramfurniture.com).
